Stockholm, Sweden**

Call For Proposal

We invite you to submit ideas for content to the 4th annual international Cyber Security Summit in Stockholm which focus on Critical SCADA and Industrial Control Systems!

You might have ideas for a presentation, demo, tutorial, workshop or want to present valuable experiences from a project. Or you might have wishes for a specific speaker, topic or an issue we should address this year. This summit have high ambitions to share ideas, to improve knowledge and increase collaborations by providing an informal atmosphere for networking among peers in the industry.

CS3 STHLM (formerly known as 4SICS) is an annual summit held in central Stockholm the 24-26 October 2017.

Last year the summit had approx. 220 participants from 20+ different countries.

The audience consists of an unique mix of operators, management from utilities, established security experts as well as representatives from governmental agencies and organisations.

Read more at <https://cs3sthlm.se/>

Drop us one or more of your ideas at cfp@cs3sthlm.se before end of May.

We will get back to you with more information on how to proceed.

Note that speakers are offered a generous speaker package.

WELCOME

24-26 October 2017, Nalen, Stockholm

Send proposal to cfp@cs3sthlm.se
