

Invoice payments

=====

For those of you that have selected the "pay via invoice" option we would just like to add that while the on-line registration process is automatic, the invoice process is still manual labour. Thus it will take some time from your enrollment until you receive an invoice. So this is just a reminder that there is no error if you don't get your invoice immediately!

VAT 25%

=====

We are forced to add VAT 25% on all tickets and invoices, both national and international. This is due to the Swedish VAT legislation (Momslagen ML chapter 5 paragraph 13a – yes, we have double checked!) saying that all services that are provided within Sweden must be subjects to VAT.

However, the amount of VAT can, after the payment of the invoice, be refunded. Within the EU there are country specific ways of obtaining this refund, but if you are from a country outside of EU you should use the link below for information (also see form 5801 at bottom of the linked web page)
